

Bullying in schools

I find it hard to describe this topic and I don't want to talk about it.

For as long as I can remember going to school meant going to see the devil himself.

Who are the victims? The victims are always the weak-hearted, cry-baby or "sissy" people. Why these people? Because these kind of people are easy to bully and it is more fun to bully them. Why it is more fun to bully them? Because of the way they will react when they are being bullied. It is also safer to bully them because everyone knows that they will not fight back, and some don't even tell the teacher. These kind of people are the best to bully. Because you can bully them as long as you want and the teacher will not know. Also because the teacher doesn't know, one will not get into trouble.

If my friends or I get bullied, I will either tell the teacher or fight with everything I got. But before that, first I will ignore them or tell my friends to ignore them. If that does not work, then I don't have any choice but to do what I have said in the beginning of this paragraph. I think bullying others is not the answer to anything in life. Those that said they bully others because they were bullied is a very bad excuse. To feel good, they can talk to someone, take out their anger on a game, shout or even write it out.

In the end bullies are just throwing their lives away!
